

Blue Banana Software
We transform vision into {code}

Reg No. 2014/106462/07 | Vat No. 4810310211

Company Profile

Blue Banana Software is a leading provider of innovative and customized software solutions that enhance your business operations. We specialize in creating software that fits your specific business needs and objectives, with a focus on seamless integration and customization.

Our Mission: Is to turn vision into code and code into value. We empower our clients with software solutions that deliver unparalleled performance and functionality, beyond what standard software can offer.

Global Expertise: We understand that each client and project is unique, and we offer globally relevant expertise in system consulting, project management, software engineering, web services, and implementation. We also provide ongoing support to ensure your long-term success.

Strategic Partnership: We are more than just a software provider – we are your strategic partner. We stay ahead of the industry trends and use innovation, creativity, and trust to build lasting business relationships.

SYSPRO Specialization: We have over 10 years of experience in SYSPRO integrations and customizations, making us your trusted partner for optimizing business processes. We immerse ourselves in your interface processes, identify efficiencies, and implement best practices to define the Minimum Viable Product (MVP).

Comprehensive Software Development: We offer customized software development services that optimize processes and efficiency. From planning and design to building, testing, and support, we ensure that the final product meets your requirements and integrates smoothly with your systems.

SYSPRO Modules and Integrations by Blue Banana Software:

We offer a variety of modules that integrate seamlessly with SYSPRO to improve different aspects of your business operations:

- **Sales Orders:** Manage your sales orders efficiently and accurately with our module that automates the process and integrates seamlessly.
- **Purchase Order Processing:** Streamline your purchasing process with our module that allows you to create, track, and approve purchase orders with ease and visibility.
- **RMA (Return Material Acquisition) Processing:** Control your RMA process better, with our module that allows you to create, track, and approve RMAs orders with ease and visibility in multiple stages of the process. We do a flawless integration into SYSPRO with all the right business rules in place.
- **GRN Processing:** Simplify your goods receipt process with our module that enables you to verify, and update your inventory and Syspro accounts with the received goods.
- **Stock Transfer Processing:** Optimize your stock transfer process with our module that facilitates the movement of goods between warehouses and locations with real-time updates and reports.
- **CRM:** Enhance your customer relationship management with our module that integrates with SYSPRO and provides you with a comprehensive view of your customers and prospects/leads.
- **Supplier Overview (SRM):** Improve your supplier relationship management with our module that integrates with SYSPRO and provides you with a complete view of your suppliers, contracts, and performance.
- **Custom Interactive Reporting:** View reports with our module that allows you to add notes for your team to view and comment on, and send emails from the report with data from SYSPRO and other sources.
- **Custom Dashboards:** Visualize your data with our module that allows you to display dashboards with charts, graphs from SYSPRO and other sources.
